

++ MICROLEARNINGS FOR TRAINERS AND TEACHERS IN VET ++

## OUR FIRST MICROLEARNINGS ARE ONLINE!

Our first Microlearnings are online! You can find our first Microlearning course “Knowledge Transfer” on our Homepage [www.microlearnings.eu](http://www.microlearnings.eu).

In 22 exciting Microlearning video clips, you will learn about the methods of a successful training, what e-Learning is and when you can incorporate it in training. You will be shown seven methods and tools, get a checklist for your next training session, and find out how younger generations learn.

**Who should watch these Microlearnings?** The primary target group are teachers and trainers in Vocational and Educational Systems. But students as well can benefit from this content.

[Watch Microlearnings here](#)

**The next topics are:**

- Leadership and Organisational Culture
- Leadership and working with young generation
- How to find and develop apprentices?
- Conflict and resolution in VET

The organisation of the training material is an innovative Microlearning format, with small learning units addressing a specific question within the topic (in video, audio and transfer materials). Each topic will consist of 20-25 video/audio clips of 1-5 minutes in length. All material will be available as a free on line educational resource in 4 languages (English, French, German and Polish).

We will keep you posted and inform you as soon as the next Microlearnings are available!

Amela Bogdanovic

PS: Please invite/forward your colleagues (to) this newsletter

## Are you trainer/ teacher in VET?

If answer is yes, you may be willing to help with the development of the Microlearnings product. We would particularly welcome your input in defining the questions for each topic and/or testing the product as it is being developed.
